Phillip Jeffries

Innovations

Pretty, versatile, and talented—a veritable show-up for the beauty-contest circuit. The swishy refined-glass shades of **Murano** are, as the name suggests, hand-crafted in Venice. They're affixed to a non-woven backing that bends like a pretzel, allowing for a clean fit into right angles. To top it all, the wood-pole backing and recyclable polyester fibers are environmentally friendly. 150 Venice Street, 9th Floor, New York, NY 10013; 800-827-8055; innovationsusa.com. **circle 445**

Set

A brand-new entry from this brand-new-to-the-market firm, **Curtain Call** is part of a collection manufactured using a patent-pending hypersaturated color system by designers who dabble in everything from steel fixtures to raggy photo murals. The gradient, silk-screen effect of the stripes suggests the rich dimension of a faded stripe. 1625 MacArthur Boulevard, Atlanta, GA 30318; 800-624-6722; setwalls.com. **circle 466**
