

## Edelman EDGE

With over 50 years experience in making the best leathers in the world for interiors, Edelman Leather continues to push the boundaries of innovation in technology and design application.

Edelman EDGE is a reliable protection against stains and marks, without changing the true beauty of leather. For no extra fee, this exclusive formula is standard on the Edelman “core” leathers; All Grain, Dream Cow, Metallic Dream Cow, Royal Hide, Napoli, Cashmere Calf and Shagreen.

These leathers already come with a dependable finish, but Edelman EDGE is stronger and created with extra care. Edelman Leather understands the various senses that help mark the luxury of leather. The look, hand and the smell of a natural product like leather are signs of its beauty; none of which are sacrificed if you choose EDGE from Edelman.

As Edelman is the expert in leather making, they continue to offer clients the best service and a commitment to making the most durable and beautiful leather.

Use Edelman leathers with EDGE in all applications for aviation, hospitality, contract and at home. Feel confident in your choice of leather as a material. Stains such as coffee, wine, ketchup and some inks are not a problem.

Delivered on Edelman’s “core” products, EDGE is also available upon request on other select semi-aniline finished products.
