*EDGE is not available on “ish” colors.

Using Edelman EDGE Cleaner & Restorer

- The EDGE Cleaner & Restorer will replenish natural oils and protect the leather for future stains and spills.
- Dust, vacuum or remove any loose topical dust and soil from the leather.
- Pre-test the EDGE Cleaner & Restorer in an inconspicuous area before use. *It is not recommended for use on pure aniline leathers.*
- Spray EDGE Cleaner & Restorer directly onto a soft, lint-free cloth.
- Gently blot the soiled area. If spot remains, continue using in a circular motion with light to moderate pressure. Do not scrub.
- Allow to air dry and repeat if necessary.

Using Edelman EDGE Ink Lifter

- Pretest on a concealed area for color fastness.
- Remove the cap and push the stick 4mm by unscrewing it.
- Rub the stained area with the stick gently.
- Allow the paste to penetrate for 30 seconds and wipe off with a clean, dry cloth.
- Repeat steps 1-4 if necessary.
- Clean with Edelman’s EDGE Cleaner & Restorer.
