

HOSPITALITY COLLECTION

fast, affordable luxury solutions

Hospitality lives at Edelman with budget-conscious, quick-turnaround options that don't sacrifice beauty, durability, or choice. The expanded collection features three new types of leathers and a renewed focus on the hospitality market's need for quality, performance, fast delivery, and value.

You will still find Edelman Leather's artistry, history, reliability, and devotion to quality, which are at the core of the trust we've built within the design community. Based on decades-long relationships with our tanneries, and an unwavering commitment to exceptionally-crafted leather, we deliver consistent, reliable products for our clients.

QUALITY

uncompromising. it's Edelman

Uncompromising quality translates to value. The leather is carefully-sourced in Europe and artisan-crafted. Therefore, Edelman is able to deliver consistent product that provides higher yields per hide. Simply put, you get more leather for your money. With quality and value come access to our unsurpassed custom capabilities.

PERFORMANCE

paired with beauty for high-traffic environments

These durable, heavy-duty leathers come standard with protective finishes and our exclusive EDGE Stain Release for extra peace of mind. The leathers comply with all applicable flammability tests, surpass any Wyzenbeek double rub standard, and are GREENGUARD Certified, meeting strict chemical emissions limits. In addition, our tanneries are ISO Certified.

Our hospitality leather choices are created for high traffic, high-volume, and high-visibility realities. Like all fine Edelman Leather, they wear in, not out.

Leather is better. Genuine leather is the original upholstery. It withstands tough use better than just about any other material. It's naturally beautiful, comfortable, cleanable, and durable. And it's the ideal choice for your end-user.

DELIVERY

fast and reliable for today's pace

Delivery is fast and reliable. We team with clients to meet their timelines. Edelman's domestic capabilities and overseas relationships allow quick turn-around deliveries for deadline-driven realities. Large quantity custom orders are delivered in as little as four weeks. With our local finishing plant, we custom color smaller quantities in under four weeks. Since we have our own Edelman inspection teams at our tanneries, we can direct drop ship outside of the US.

VALUE

solutions that work

We know price matters in bringing your projects to life. We don't offer a one-size-fits-all experience because we act as your partners, your co-creators. We ask the key questions, and we answer with solutions that meet the needs of your designs, your end-users, and your budget. Our Hospitality Collection offers leather that inspires you at prices that will surprise you.

Hospitality lives at Edelman.
