Product: Cavallini, Cappuccino (C20)

Yield: 1.4 yards per sf; 25 sf = 35 yards

Notes: The Betwixt product in Cavallini Cappuccino is a special welt. It must be handmade due to the thickness of the fur hides. Because it is hand-sewn, you will notice where the transition occurs between the strips. All others are held together with glue and heat press. Cavallini is not recommended on any other product.
