

# WHY CHOOSE LEATHER? IT'S NATURALLY THE BEST

## **Edelman Leather is...**

### **NATURAL AND THAT MATTERS**

At a time when consciousness has been raised about the importance of material selection, it's important to remember that leather is a natural material.

### **SUSTAINABLE**

Leather is a sustainable product with a long-life span. It will last for years with very little maintenance.

### **RECYCLABLE**

Leather is 100% post-consumer recyclable.

### **BIODEGRADABLE**

Leather is 100% biodegradable.

### **SAFE**

Leather is a non-toxic material and it does not off-gas. Allergies to leather are extremely rare.

### **CRAFTED WITH ENVIRONMENTALLY-SOUND STANDARDS**

Our overseas leather tanning and finishing processes are monitored by environmental agencies, ensuring there is no contamination to the environment.

### **COMFORTABLE**

Leather breathes. It's soft and inviting to the touch.

### **VERSATILE**

Leather can be finished in a variety of ways to create different moods through near-limitless styles, textures, and colors. It works in any setting.

### **GROUNDING IN HISTORY**

Leather predates woven textiles. It's the original upholstery material.

### **A RETURN ON INVESTMENT**

Luxury by definition is a long-term investment.

### **LEATHER IS BEST IN CLASS**

Selectively sourced leather is enduring, versatile, inviting, beautiful, and an environmentally responsible choice.
