

Artisan

EDELMAN[®]

A leather-lover's leather. A rustic, forever lasting upholstery leather. The epitome of old school luxury.

Artisan mirrors years of aging and patina in a pure, workmanlike vegetable tannage, on specially selected elegant calfskins.

This unique calfskin is hand-finished, Old World style, to give it the look and feel of antique leather. The longer it is used, the more patina.

A revolutionary look, using the oldest recipe in the tanning industry created for belts on machinery, straps and workers' tool safety belts. Leather at it's best, the ultimate in leather.
