## embossing overview

### **Platelines**

We use a plate to emboss this pattern, which offers a deeper, richer emboss. Platelines appear every 34 inches, approximately three times on one half hide. The pattern and color combination both contribute to the variations in how obvious these lines appear.

### **Pattern Depth**

Leather is a natural product and it may take the embossing effect differently across the hide. There will be some variation in the depth of the embossed pattern print.

### **Variation in Hand Antiquing**

Woven Leather is a hand-antiqued leather. Therefore, there will be some variation in color and tonal effect of the tipping within a hide and from hide to hide.
